

An LA Robotics/SCRRF Event

2020 Kit Bot Build Day

From Kit to running Bot in one day!

Having a working Bot on day two of the build season is especially helpful for Rookie teams that have never designed actuators, grippers, lifters, drive trains, etc. before.

Sunday, January 5th - 8 am at Valencia High School
500 Bradford Avenue, Placentia, CA 92870

(Near the intersection of 57 & 91)

Software Mechanical Electrical Integration

Rookie and veteran teams are welcome!

Mentors will be available to demonstrate, help, and teach.

For more information or to participate, email kbb@team4470robotics.org or just show up! A \$25 fee – payable at the event – helps cover our costs.

Bring your ENTIRE kit, a Windows 7/8/10 laptop (if you have one) and whatever tools you have – loaner tools & computers available. Do NOT assemble kit or install software.

Hosted by FRC team 4470 – the TiGears.
