

2022 State Interview Form

Each judge will use this form to complete an online judging session. Each judge should submit her/his own form for each team interview. To facilitate asking the questions during the interview, this form can either be printed out in advance or displayed on a separate screen or split screen from the Zoom window.

Please read the questions naturally to the team, so it does not appear you are reading from a form. Please do not reword the questions, but you may clarify the questions if needed. Ask clarifying questions if needed to be confident in your judgement of the team's understanding of the question, but be aware of the clock. Judges may take turns asking questions.

For sliding-scale answers, 5 is the best possible response by the team. Use "NA" if you are not able to answer the question. Text answers should highlight any award-worthy accomplishments. If there is time, judges should commend the team for their best accomplishments, especially award-worthy accomplishments. Remember, this online judging rubric is only one part of the judging process for teams and, like all aspects of the judging process, is confidential.

State Championship

1. South LA MS
2. South LA ES
3. East LA ES
4. East LA MS

Each judge introduces himself/herself to the team.

We have a few housekeeping items before we can start the interview.

- Adult Team Member, please tell us your full name.
- Adult Team Member, please tell us to your Team Number.
- Adult team member, this is a friendly reminder that in compliance with the Judge Guide, you must remain on screen in this interview room and not speak, communicate, or send signals for the entire 10-minute interview. Do you agree?
- All team members, this interview may not be recorded in any form. Please give us a thumbs up if you agree.

Interview

We will start a 10-minute timer now. The interview will end after ten minutes whether or not the team has answered all seven questions.

1. Tell us some of the things your team is proud about this season, some of the things your team has accomplished.
2. Tell us about the most creative design solution on your robot.
3. Tell us how your team developed your robot design.
4. Tell us how your team developed your game play and skills strategies.
5. Tell us about your programming or autonomous code and how you are using sensors.
6. Tell us how your team monitored its progress and managed tasks and resources.
7. Is there anything else you would like to share with us regarding your team, the engineering design process, or your game strategy?

End of Interview

This interview is now complete. Thank you for sharing your work with us.

The Adult Team Member should be the last team member to leave this Zoom meeting. Team members, please click on Leave and Leave Meeting now to exit this Zoom meeting.

JUDGES remain in the break-out room with your judging partner(s). Do not click NEXT until all team members and the adult have left.

Deliberate

Discuss these questions with your judging partner(s) and rank your responses. You do not need to agree with your judging partner(s) on the ranking you choose; use your judgement on your ranking for the questions below.

- Rank your overall impression of how well the team understands and follows the Engineering Design Process in all aspects of robotics: robot design, robot programming, solving the game challenge.
- Rank your overall impression of how well the team works cooperatively.
- Rank your overall impression of how respectful and courteous the team was with other team members and judges.
- Rank your overall impression of the team's passion and positivity.
- Optional: If you would like to nominate this team for a Judges Award, please provide your reasons.
- Optional: Is there anything else that you would like to add about the team?
